BD Veritor™ System

CLIA-waived for Rapid Detection of Flu A+B

BD Helping all people live healthy lives

- **Proven Performance vs PCR —** PCR is currently the highest sensitivity standard available
- **Reproducibility You Can Count On —** Unique Adaptive Read Technology helps reduce false-positive results
- **Results You Can Trust—** Easy-to-read digital display eliminates subjective interpretation
- **Convenient Workflow—** Testing requires minimal hands-on time

Medical technology that captures the trusted answer

BinaxNOW® *S. pneumoniae* Urinary Antigen Test

An *in vitro* rapid immunochromatographic assay for the qualitative detection of *S. pneumoniae* antigen in the urine of patients with pneumonia and in the cerebral spinal fluid (CSF) of patients with meningitis. In conjunction with culture and other methods, it is intended to aid in the diagnosis of both pneumococcal pneumonia and pneumococcal meningitis.
- Dependable accuracy
- Accuracy/sensitivity: urine: 86% sensitivity/94% specificity; CSF: 97% sensitivity/99% specificity
- No results negatively affected by previous antibiotic use
- Self-contained, swab-based device–no tubes or pipettes
- Easy to use: insert urine- or CSF-saturated swab into test card, add reagent, and read results in 15 minutes
- Both built-in and external positive and negative controls ensure test viability
- **Made in the USA**

#710-000, 22-Test Kit
(512-0000) .....ea

CPT® Code: 87449†

Clearview® RSV Test

A 15-minute, four-step test for the qualitative detection of RSV. For use with nasopharyngeal swabs and nasal aspirate specimens (approved claim: in children less than 6 years and adults more than 60).
- CLIA waived
- Sensitivity: 93.9%
- Specificity: 97.7%
- Room-temperature storage
- Built-in control to ensure accuracy
- Shelf life up to 12 months from date of manufacture
- **Made in the USA**

#135060
(512-8933) 20/box

Contains: 20 test devices, 2 mL extraction reagent solution, 1 mL each positive & negative controls & 40 disposable pipettes.

OneTouch® SureSoft™ Lancing Devices

Single-use lancing devices are electropolished, which results in more blood than an acid-washed needle. This means you can use a smaller gauge needle while still ensuring that a sufficient sample will be drawn for point-of-care testing.

- Electropolished needle means a smaller gauge and more comfort for your patients
- Meets OSHA guidelines: nonreusable, retractable needle
- Distinctive wing design prevents reloading and reusing
- Preset gauge for no guessing, no maneuvering and easy training
- On-demand training through Web and CD-ROM programs

NIPRO DIAGNOSTICS™ TRUE2go

TRUE2go™ Blood Glucose Meter Kit

- Easy to use: simply twist the TRUE2go on the top of a new vial of strips
- Test results within 4 seconds
- No coding: eliminates a step that can lead to inaccurate results
- Convenient: the smallest meter in the world

The world's smallest meter system makes blood glucose testing easy and affordable. Just twist TRUE2go™ on to the top of a new vial of TRUEtest strips and you're ready to go.

HEMOCUE

Glucose 201 Analyzer

The HemoCue Glucose Systems are based on a glucose-dehydrogenase method and consist of a small, dedicated analyzer and a unique, disposable microcuvette. They will produce lab-accurate results for diagnosing or monitoring diabetes, as well as monitoring neonatal blood glucose levels.

- More accurate and 68% higher reimbursement than glucose meters
- FDA-compliant unit when screening and diagnosing
- Analyzer: 0–444 mg/dL (0–24.6 mmol/L)
- Only 5 µL of capillary, venous, or arterial blood is needed
- No inherent limitations related to hematocrit or known drug interferences
- No recalibration needed between cuvette lots
- 2-year warranty

#120706, Analyzer
(104-2290) .....ea

#110706, Microcuvette, Glucose

HEMOCUE

Hb 201+ Handheld Hemoglobin Analyzer

Offers the same important benefits as its predecessor, the B-Hemoglobin Photometer. Smaller size gives more flexibility and mobility to use the system anytime and anywhere. Performs an internal self-test. No control cuvette required.

- Produces results in less than 1 minute with lab-quality accuracy
- 3 easy steps
- Precalibrated, portable analyzer that requires minimal maintenance
- No calibration or instrument manipulation (between cuvette/reagent batches) is needed
- Safe and easy to use
- Reimbursable
- CLIA '88 waived
- 2-year warranty

Analyzer
(345-2344) .....ea
Contains: analyzer, AC adapter, manual & training CD-ROM.

#3201 Microcuvettes
(110-9167) 100/box
Contains: 4 packs of 25.

(345-8733) 200/box
Contains: 4 packs of 50.

Roche

Accutrend® Plus Meter Kit

Chemcard™ Glucose Test

A simple, effective screening test that is used to identify abnormally high fasting plasma glucose (blood sugar) levels which are often a warning sign of diabetes.

- 3-minute whole-blood screening test
- No instrumentation required
- Room temperature storage, not to exceed 86°F (30°C)

#47024, Glucose Test
(844-1247) 24/box

Chemcard™ Cholesterol Test

- 3-minute whole-blood screening test
- Color interpretation from 150 mg/dL to 300 mg/dL in increments of 25
- No instrumentation required
- Room-temperature storage, not to exceed 86°F (30°C).

(100-7110) 24/box

Afinion™

Simple ▪ Fast ▪ Reliable

Afinion™ HbA1c Test

- CLIA-waived - no special training required
- Easy sample collection and operation
  - Sample size: 1.5 µL of blood
  - Sample types: capillary and venous whole blood
- 3 minute test time
  - Increased efficiency
- Reliable, lab quality results
  - Precision: <3% CV
  - NGSP certified
  - No interferences from hemoglobin variants

HemoCue®

HemoCue® Albumin 201 System

Can be used for quantitative determination of low levels of albumin in urine for the purpose of screening, diagnosis, monitoring, and supporting clinical evidence in the treatment of microalbuminuria. The system consists of a small, specially designed analyzer and individually packaged microcuvettes containing freeze-dried reagent. The test is performed at the point-of-care, using a microcuvette filled by capillary action. To obtain a quantitative result, fill the microcuvette, place it in the analyzer, and read the result. The system is based on an immunoturbidimetric reaction using antihuman albumin antibodies. The antigen-antibody complex creates turbidity, which is measured photometrically at 610 nm. The albumin concentration is proportional to the turbidity, and the result is shown on the display in mg/L.

Uri-Check® Plus Test Kits
A semiquantitative dip-slide culture system for the screening and early detection of urinary tract infections. More than 100,000 bacteria per mL indicates infection. 1½" diameter with patient label affixed to vial. Refer to Uri-Check reference chart to help identify bacterial growth present. 3–5-month shelf life. Nonreturnable. Requires Boekel's Micro Incubator #260700 **(100-6303)**.

#3000UC, CLED Agar/EMB Agar
(224-9604) 10/box

Uricult Test Kits
A simple, self-contained urine test method for the detection of bacteria that commonly cause urinary tract infections. Uricult urine-culture paddles are capable of detecting bacteriuria concentrations as low as 1000 CFU/mL of urine.

#1000, CLED/EMB
(120-9110) 10/box
Contains: paddles, patient ID stickers & package insert.

TROY Biologicals

Uri-Check® Test Kits
A semiquantitative dip-slide culture test for the detection of urinary tract infections. Kit includes 1" vials and caps, paddles slightly smaller than 1", and patient labels affixed to the outside of the vial.

#1000UC, CLED Agar/EMB Agar
(224-7373) 10/box

Accutest® Uriscreen™ Tests
- Rapid urinary-tract infection screen test for bacteriuria and presence of somatic cells in urine
- Detects true infections with high sensitivity and high NPV
- Positive screening result indicates presence of bacteria and/or somatic cells

Flo-Med 1100™ Precision Uroflowmetry System by Henry Schein® Medical

What is the Flo-Med 1100 by Henry Schein?

It is a simple, non-invasive diagnostic screening device used to calculate the flow rate of urine over time. This aids in diagnosis of bladder and sphincter function as well as prostate conditions.

- Easy to use (hygienic & convenient)
- Height adjustable
- Battery operated
- Wireless communication to laptop iPad, or other PDA (hardware capable)
- CPT 51741†
- Compact/portable
- One-touch technology
- Easy calibration
- PDF can easily be stored into an EHR

System Requirements:
Windows 7, XP, Vista
Hardwire compatible with PCL5 Printer

(112-5811)
Flo-Med Precision Uroflowmetry System, 1 Unit
(112-5812)
Flo-Med Cup & Funnel Disposables, 24/Sets

Other accessories such as Laptops and printers are available separately.

SIEMENS

Clinitek Status+ Urine Analyzer

Provides convenient point-of-care testing with improved data integrity for more confidence in the results. Simple, fast, and accurate testing produces a result in about 60 seconds. Status analyzer can process basic urine strips, ratio tests, and hCG cassette tests. Full alphanumeric keyboard, easy-to-use touch-screen display, and automatic strip identification make this unit convenient to use. Eliminates need for visual reading, timing errors, and transcription errors. Memory to store 950 patient records. Future-ready for EMR when you are.

#1780
(795-0055) .....ea

SIEMENS

Clinitek® Advantus™ Analyzer

With Bar-Code Reader

For laboratories or practices requiring medium to high throughput (up to 500 tests per hour). Respond to demands for higher productivity and high quality. Streamline your workflow with flexible operation. Immediate start-up. Automatic calibration, network ready, and offers the widest range of test options. Added QC features.

- Easy-to-use color touch-screen
- Ability to consolidate microscopy results onto one patient record
- QC lockout available or automatic prompting if regimen is not followed
- Testing flexibility with simple, one-touch switching between different strip configurations
- Three sieve functions–confirmatory and microscopic–to flag abnormal results for quick review
- Convenient data retrieval for up to 500 patients by patient ID
- 200 control results
- Streamlined operation with immediate start-up
- Improve efficiency with nonpacing processing
- Improve accuracy with automatic calibration for every strip
- Continued productivity boost with throughput of 7 seconds per sample
- Minimize errors with simple, bar-code identification of sample, color, and clarity values
- Flexibility in reporting options, on-screen display, printout and/or uploading to laboratory information system

Multistix® 5 Reagent Strips

- Includes glucose, protein, blood nitrite, and leukocyte
- Easy, accurate, and reliable results in 60 seconds

#2309
(147-0768) 100/btl

Multistix® 9 SG Reagent Strips

Test for glucose, bilirubin, ketone, specific gravity, blood, pH, protein, nitrite, and leukocytes in urine.

#2163
(147-5776) 100/btl

SIEMENS

Clinitek® Microalbumin Test Strips

Test for semiquantitative determination of microalbumin/creatinine in urine. Semiquantitative tests for protein (2–4 mg/dl) and creatinine. Includes an A:C ratio result.

- CLIA waived on CT status analyzer
- Dip-and-read test for albumin and creatinine in urine
- Determines an A:C ratio for greatest accuracy
- Use a random urine sample–reduces need for a 24-hour collection
- Timeframe: 60 seconds
- **Made in the USA**

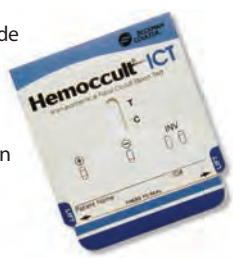
When quality is at the core of every decision you make…

Trust Hemoccult ICT—the only Immunochemical fecal occult blood test clinically tested over an extended duration and proven to work. Our dry-slide process has provided excellent proven results for over 40 years.

Excellent 14-day stability–developed with dry-slide technology, which increases stability of the sample–allowing for multiple-day collection and necessary transit/development time.

Higher sensitivity and specificity–clinically proven to have a relative sensitivity of 100% and apparent specificity of 99.1%.



No drug or dietary restrictions–Hemoccult ICT is specific to intact human hemoglobin–eliminating interactions from red meat, Vitamin C and other factors that lead to false positives.

The right choice–meeting the American Cancer Society and the U.S. Task Force for Colorectal Cancer (CRC) Foundation recommendation of multiple-day testing for CRC.

For information on developing a colorectal cancer screening program in your office, contact your Henry Schein representative today.

BRAND PRODUCTS

HENRY SCHEIN®

ONESTEP+ IFOBT OCCULT BLOOD MONOCLONAL ANTIBODY KITS

Innovative dry-base collection method that utilizes 1 sampling card for the collection of 2 fecal specimens, and requires only 1 immunochemical specimen preparation tube/test cassette system for analysis.

- Meets the American Cancer Society and the US Task Force for Colorectal Cancer (CRC) Foundation recommendation of multiple-day testing
- The sampling tab technology replaces unpleasant liquid buffer tubes and eliminates human error due to patient oversampling
- No dietary or drug restrictions
- 30-day stability/24-month shelf life from date of manufacture
- CLIA waived
- **Made in the USA**

Cassettes
(900-7458) 30/box

Contains: 30 test cassettes & 30 buffer tubes.

25-Test Complete Kit
(900-4413).....25 tests/kit

Contains: 25 test cassettes, 25 buffer tubes & 25 patient return mailers.

20 Patient Mailer Kits
(900-4416) 20/pkg

Contains: 20 postal-approved envelopes, each containing 1 sampling card slide, 2 applicators & patient instructions.

25-Test Complete Kit
CPT® Codes: 82274QW†/G0328QW†

Making FIT Happen

The Inconvenience and Mess of Fecal Occult Blood Tests Are Over

InSure® FIT™ Fecal Immunochemical Test for Early Detection

InSure® FIT™ is the sensible take-home multiple sample method made simple, quick, and easy for you and your patients. It features the only patented, water-based collection method with two samples on one test card meeting American Cancer Society Guidelines* for Colorectal Cancer Screening.

Unlike other FOBTs that require fecal handling and test-card smears, InSure® FIT™ is the one test with no mess. With a gentle brushing of the stool in water, InSure® FIT™ provides 87% sensitivity and 98% specificity for colorectal cancer. What's more, this unique, convenient method promotes high patient compliance.

Help Your Patients Get FIT and Stay Healthy

For a limited time, InSure® FIT™ Sample and Educational Packages are available for you to trial FREE. To learn more about how you can make FIT happen, contact your InSure® FIT™ Representative, visit www.insuretest.com, or call 1.800.531.3681.

*The American Cancer Society recommends for people over 50 a multiple sample method for take home FOBT or FIT screening test; FOBT or FIT testing done during a digital rectal exam in the doctor's office is not recommended.

InSure® FIT™ Fecal Immunochemical Tests (FIT)

Test provides high sensitivity and ease of use with a simple, water-based collection method designed to be more patient-friendly. The patented brush sampling replaces unpleasant fecal collection or smearing. No dietary or medicinal restrictions, enhanced specificity and sensitivity for more productive colonoscopies.

- 87% sensitivity for colorectal cancer*
- 98% specificity*
- 66% increase in patient compliance vs. a guaiac-based fecal occult blood test (gFOBT) was found in one study*
- No handling/smearing of dry, solid fecal materials*
- **Made in the USA**

A rapid acidity test for the evaluation of vaginitis (bacterial vaginosis and trichomonas). This 3-second, user-friendly test accurately detects mixed vaginal infections, which allows for immediate treatment, resulting in health care provider and patient satisfaction.

- Easy to use and operate
- Immediate results
- No need for a color scale
- No need to send samples to a lab and wait for results
- Sensitivity: 86.32%
- Specificity: 93.43%
- 3–5 second timeframe
- Room-temperature storage

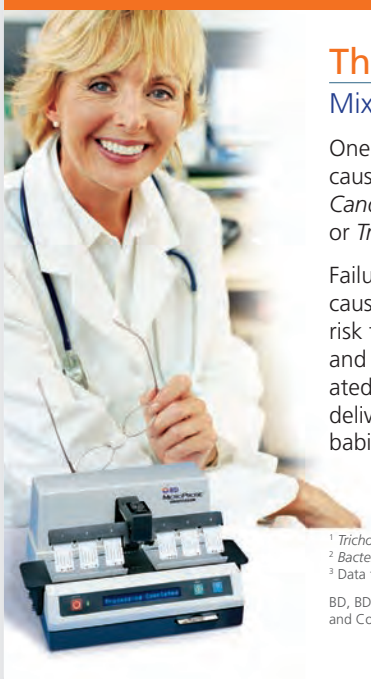
BD Affirm™ VPIII
Microbial Identification System



The Problem:
Mixed vaginal infections.

One of every four vaginal infections are caused by two or more organisms: *Candida* species, *Gardnerella vaginalis* or *Trichomonas vaginalis*.

Failure to diagnose these common causes of vaginitis can carry significant risk for your patients. Trichomoniasis and bacterial vaginosis (BV) are associated with increased risk of HIV infection, delivering preterm, low birth weight babies and, if untreated, PID.[1,2]

[1] *Trichomoniasis*, CDC, Div. STD. Fact Sheets Sept 2000.
[2] *Bacterial Vaginosis*, CDC, Div. STD. Fact Sheets Sept 2000.
[3] Data from package insert.

BD, BD Logo and Affirm are trademarks of Becton, Dickinson and Company. ©2009 BD

The Solution:
1 molecular test that detects & differentiates 3 organisms.

The BD Affirm™ VPIII system quickly identifies and differentiates three pathogens from one single test. The Affirm VPIII technology provides RNA accuracy to enable targeted therapies.

- Results in < 45 minutes
- Enables proper therapy, the first visit
- Unaffected by difficult specimens: menses, sperm or creams from self medication.[3]

Learn more about Affirm VPIII testing in your laboratory, call 800.553.3470.

Helping all people live healthy lives

CYTOLOGY

Affirm™ VPIII Kit
Easy-to-perform, moderately complex DNA probe technology. Conclusive identification of Candida species, *Gardnerella vaginalis*, and *Trichomonas vaginalis* from a single vaginal sample.

- Accuracy up to 30% higher than slide microscopy
- Less than 2 minutes hands-on time required
- Easy-to-read results
- Built-in procedural controls for each sample

UPDATED: USPSTF "B" RATED GUIDELINE – recommends screening for hepatitis C virus in persons at high risk for infection and a one-time screening for ALL adults born between 1945 and 1965 (baby boomers)*.

About **4.1 million** people have **hepatitis C** and **3 in 4** don't know it

and About **1.1 million** people have **HIV** and **1 in 5** don't know it

Change a Life in 20 Minutes...

Only early diagnosis and linkage to care can improve your patient's health outcomes.

The CDC and the new USPSTF "A" rated guidelines recommend HIV screening of **ALL** adolescents and adults age 15 to 65. Additionally, both groups urge testing for **ALL** persons at risk for hepatitis C.

Deliver results in 20 minutes at point of care

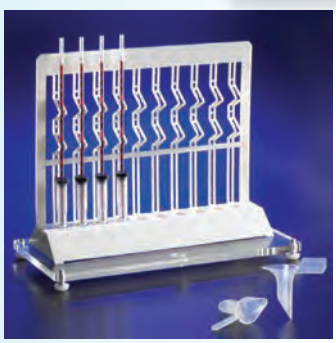
sedi-rate



globe SCIENTIFIC INC.

Sedi-Rate™ Westergren ESR System and Accessories
The erythrocyte sedimentation rate (ESR) system is a nonspecific test that alerts physicians to the presence of disease or abnormality in the body. Sedi-Rate's pipette features a unique self-sealing aerosol barrier plug designed to seal upon contact with blood, eliminating exposure to blood aerosols. Its polypropylene vial is prefilled with 0.25 mL of 3.8% trisodium-citrate diluent and features a self-sealing stopper. Test results are ready in 60 minutes and can be read directly from the imprinted graduation marks on the pipette.

#3467, Starter Kit
(217-0930) .....ea
Contains: 100 Sedi-Rate pipettes & vials, 1–10-place rack with pipette support clamps, 1 leveling platform, 100 piercing funnels & 100 ESR transfer pipettes.

AllerVision Offers an "Ahh" Inspiring Allergy Solution For Your Practice.

With over 50% of Americans sensitized to at least one allergen, the World Allergy Organization urges practices to "find the cause and prevent symptoms and disease progression, rather than just rely on medications to suppress the symptoms." AllerVision can help your practice establish a comprehensive allergy program. We'll train your entire staff to use the most effective diagnosis and treatment options available, so you can help your patients and your practice. To learn more, call your Henry Schein Consultant or (800)772-4346 today.

Alere™ Triage® MeterPro™ Meter

High-performance, comprehensive cardiovascular and drugs-of-abuse testing in the laboratory or at the point of care (POC). Designed to provide diagnostic results quickly and easily. Quantitative diagnostic panel results are displayed and printed in easy-to-read numbers and highlighted when the result is above the cutoff. Qualitative diagnostic panel results are displayed as positive (POS) or negative (NEG), eliminating the need for interpretation of lines that often hamper qualitative diagnostics.

- 16 immunoassays available
- Results in about 15 minutes
- Whole blood, plasma, or urine
- Customizable test panels
- Onsite training and implementation support
- Results printed, displayed, and interfaceable
- Full connectivity support

CoaguChek XS® System

PT/INR Monitoring Solution

The next generation in point-of-care prothrombotin (PT) and international normalized ratio (INR) testing, this new system uses exclusive smart technology to help ensure accurate results and offers the flexibility and control that health care professionals need to confidently manage a wide range of anticoagulated patients. It is the only system to perform onboard quality control and determine patient results in a single-test chamber.

- CLIA waived
- Neutralizes therapeutic levels of heparin and LMWH
- INR corrected for hematocrit within specified range; manage a broad array of patients with a single device
- Small sample size (10 µL) for easy dosing
- Strip allows dosing from either top or side for simple blood application
- Small, battery-powered, handheld meter for portability and efficiency
- Onboard controls; no external QC necessary
- Auto-on with strip insertion and auto-off capabilities
- 18-month strip shelf life; no refrigeration needed
- **Made in the USA**

OneTouch® SureSoft™ Lancing Devices

Single-use lancing devices are electropolished, which results in more blood than an acid-washed needle. This means you can use a smaller gauge needle while still ensuring that a sufficient sample will be drawn for point-of-care testing.
- Electropolished needle means a smaller gauge and more comfort for your patients
- Meets OSHA guidelines: nonreusable, retractable needle
- Distinctive wing design prevents reloading and reusing
- Preset gauge for no guessing, no maneuvering and easy training
- On-demand training through Web and CD-ROM programs

BD™ Vacutainer® Eclipse™ Blood-Collection Needles
Thin Wall, 1¼"

Safety-engineered, multisample needle offers a simple, effective way to collect blood while it reduces the possibility of needlestick injuries. It features a patented shielding that allows for one-handed activation to cover needle immediately upon withdrawal from vein and confirm proper activation with an audible click. New needles with preattached holders are ready to use with no assembly required.

BD™ Microtainer® Contact-Activated Lancets

Designed with a positive patient experience in mind. The contact activation method facilitates a consistent puncture depth and minimizes the likelihood of having to repeat the puncture. It covers only a small area at the contact point, resulting in improved visibility of the puncture site for the clinician and greater accuracy of lancet positioning when performing the puncture. Its innovative ergonomic design allows for a more comfortable grip. The lancet automatically retracts into the device, which prevents the lancet from being reused. In addition, the lot number is laser-etched on each lancet for easier tracking.

UNICO
Tube-Cubes®
Available in 3 configurations to accommodate practically all of your needs. Each cube measures 2⅝"H x 2⅞"W x 2⅞"D. The 9-place version holds 8-mm to 16-mm/10-mL to 15-mL tubes. The 4-place version holds 26-mm to 30-mm/50-mL tubes. The single place version holds 66-mm cups, alcohol dispensers, small flasks, and more.

- Invert and pour: tubes will stay in place
- Great for phlebotomy trays
- Organize and store samples in refrigerator or freezer

#54900, 9 Place, for 8-mm–16-mm Tubes
(112-4212) 4/pkg

#54400, 4 Place, for 26mm–30-mm Tubes
(112-4210) 4/pkg

#54100, Single Place, for Up to 66-mm Tubes
(112-4214) 4/pkg

UNICO
Tube Rack
Starting with a single 50-place T-Rack, you can attach as many racks as space allows. These patented racks attach together quickly and easily with their unique built-in T-connector, which allows the flexibility to attach as many racks as needed.

- Each rack holds up to 50 tubes of varying sizes in two 25-hole sections
- Top shelf has cross-referencing alphanumeric designation in order to track exact location of specific tubes in rack
- Attach additional T-Racks together; make a single large rack as big as needed
- Made of durable, autoclavable polypropylene; will not break or become brittle in low-temperature refrigerators
- Easy to clean and disinfect
- Arrives disassembled and can be snapped together in seconds
- Dimensions: 8¾" x 3¾" x 5¼"

#54500, 50 Place (Expandable)
(111-7761) .....ea

UNICO
Tube-Cube® Carrier
Durable acrylic, and designed to hold any combination of Tube-Cubes. Available 4-place configurations. Provides a safe, convenient way to carry patient samples to the lab.

UNICO

PowerSpin™ FX Centrifuge

Features a 6-place angled rotor designed for 2–10-mL tubes (maximum tube size up to 16 mm x 110 mm) and a fixed speed of 3400 rpm, generating 1350 RCF (g) for superior specimen separation. Set the 0–30-minute timer to desired run length.

- Maintenance-free, brushless motors run quietly at a fixed speed of 3400 rpm, emitting only 58dB, all with a low temperature rise
- Suction-cup rubber feet hold unit firmly in place while virtually eliminating vibration
- Lid features a gasket to reduce aerosol emissions, a window for strobe speed checks, and a safety interlock switch that cuts power to motor if lid is raised
- Accessories available on request: 8-place rotor and pediatric tube adapters
- 1-year manufacturer's warranty
- Dimensions: 10.2" x 11.8" x 7.9"
- Weight: 15 lb
- 115 V/60 Hz

(715-5981) .....ea

UNICO

PowerSpin™ LX Centrifuge

Spin blood, urine, fecal materials, or semen at the best speed for each type of specimen with this powerful, variable-speed, 6-place centrifuge. Maintenance-free, brushless motor runs quietly at a fixed speed up to 4000 rpm, emitting only 58dB, all with low-temperature rise. Suction-cup rubber feet hold unit firmly in place and virtually eliminate vibration. Lid features a gasket to reduced aerosol emission, a window for strobe speed check, and a safety interlock switch that cuts power to the motor if lid is raised. Angled rotor accepts 2–10-mL tubes (maximum tube size 16 mm x 110 mm). Accessories available upon request: 8-place rotor and pediatric tube adapters.

- Speed range: 300–4000 rpm, generating up to 1850 RCF (g)
- 30-minute timer
- 1-year warranty
- Dimensions: 10.2" x 11.8" x 7.9"
- Weight: 15 lb
- 115 V/60 Hz

Diamond™ White Glass Microscope Slides

Clearly Superior.

Diamond™ White Glass Microscope Slides are super high quality slides that compare to the top brands . . . but at substantial savings. Our slides are produced from water white glass sheets and are so clear . . . ***you will see the sample not the slide.***

Diamond™ White Glass Microscope Slides are ideal for all routine applications, automated instruments, long-term storage, fluorescence studies and where accuracy and the highest optical quality are of paramount importance.

Available in plain, frosted, color coded, charged and instrument specific versions. All slides are double cellophane packaged to protect against moisture and foreign particles.

Microscope Cover Glass
Vacuum Pack, 10 oz

#1401-10, 18 mm x 18 mm, #1 Thickness
(424-0016) 10/box

#1401-20, 18 mm x 18 mm, #2 Thickness
(424-0017) 10/box

#1404-10, 22 mm x 22 mm, #1 Thickness
(424-0020) 10/box

#1415-10, 24 mm x 50 mm, #1 Thickness
(424-0034) 10/box

#1419-10, 24 mm x 60 mm, #1 Thickness
(424-0039) 10/box

Microscope Slides, Glass
25 mm x 75 mm,
90° Ground Edges,
Safety Corners
Premium-quality microscope slides are precleaned and ready to use. They feature finely-ground edges and slightly clipped corners for comfortable handling. Each box of slides contains a moisture-absorbent sheet to prevent sticking.

Plain (Colorless)
#1321, Unfrosted
(868-0622) 72/box

#1324, Frosted
(803-6390) 72/box

Frosted, Colors–Color on 1 End/1 Side
#1324W, White
(868-6492) 72/box

#1358W, White, Adhesive
(868-0134) 72/box

#1324N, Orange
(424-0005) 1440/case

#1324Y, Yellow
(424-0007) 1440/case

#1324P, Pink
(424-0006) 1440/case

#1324B, Blue
(424-0003) 1440/case

#1328, 2 Sides, Frosted
(868-0123) 72/box

Ground Edges, 25 mm x 75 mm x 1 mm
#1301, Plain
(424-0000) 1440/case

#1304, Frosted (1 End, 1 Side)
(424-0002) 1440/case

globe SCIENTIFIC INC.

Microscope Slides–Glass
25 mm x 75 mm
Frosted/colored, 1 end, both sides, beveled edges, clipped corners.

#1331, Plain
(424-0008) 1440/case
Contains: 72/box, 20 boxes/case (10 gross).

#1334, Frost
(424-0009) 1440/case
Contains: 20 boxes/case (10 gross)

#1334B, Blue
(424-0010) 1440/case
Contains: 20 boxes/case (10 gross)

#1334G, Green
(424-0011) 1440/case
Contains: 20 boxes/case (10 gross)

#1334N, Orange
(424-0012) 1440/case
Contains: 20 boxes/case (10 gross)

#1334P, Pink
(424-0013) 1440/case
Contains: 20 boxes/case (10 gross)

#1334Y, Yellow
(424-0014) 1440/case
Contains: 20 boxes/case (10 gross)

#1334W, White
(109-9262) 1440/case
Contains: 20 boxes/case (10 gross)

#1338, Double Frost
(424-0015) 1440/case
Contains: 20 boxes/case (10 gross)

Research-Grade Centrifuge Tubes

- Acrylic spin rate is 5,000 rpm
- Polypropylene spin rate is 10,000 rpm
- All caps are made from high-density polyethylene (HDPE)

#6267, Acrylic, Non-sterile, Bulk
(102-6540) 500/case

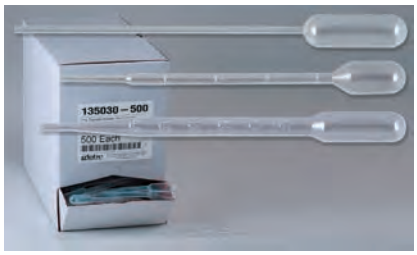
#6264, Polypropylene, Non-sterile, Bulk
(280-5289) 500/case

#6270, Acrylic, Sterile
(185-8503) 500/case
Contains: 25 per bag.

#6273, Acrylic, Sterile
(424-7963) 500/case
Contains: 50 per rack.

#6269, Polypropylene, Sterile
(424-6254) 500/case
Contains: 25 per bag.

#6271, Polypropylene, Sterile
(243-5517) 500/case
Contains: 50 per rack.



globe SCIENTIFIC INC.

Transfer Pipettes

These plastic transfer pipettes are made from high-quality, flexible polyethylene and are completely unbreakable. They are offered in a variety of sizes and tip styles and are perfect for all liquid transfer applications.

- Packaged in convenient dispenser boxes
- Available in sterile and non-sterile versions
- Nontoxic and inert

#137038, 5 mL, Sterile, Graduated to 1 mL
(606-9661) 400/case

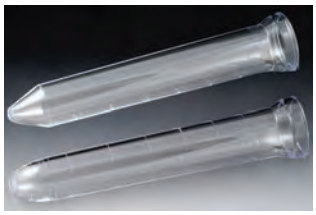
#135038, 7 mL, Sterile, Graduated to 3 mL
(990-1310) 400/case

#137035, 3 mL, Non-sterile, Graduated to 1 mL, Dispenser Box
(185-8544) 500/box

#136030, 4.5 mL, Non-sterile, Narrow Stem, Nongraduated, Dispenser Box
(904-6934) 500/box

#137030, 5 mL, Non-sterile, Graduated to 1 mL, Dispenser Box
(120-9438) 500/box

#135030, 7 mL, Non-sterile, Graduated to 3 mL, Dispenser Box
(120-8751) 500/box



globe SCIENTIFIC INC.

Urine Centrifuge Tubes

PS, Graduated, 12 mL

These 12-mL flared-top urine centrifuge tubes are made of high-quality polystyrene (PS) and are available in Ames-type, Kova-type and Whale-type styles. Blue and yellow snap caps are also available.

- Tube dimensions: 20 mm x 115 mm
- Polystyrene spin rate: 1500 rpm

#112017, Ames-Type
(120-9178) 500/pkg

#112015, Kova Type
(424-0502) 2000/case

#112030, Sediment Bulb, Whale-Type
(424-0054) 1500/case

#113136, Blue Snap Caps for 12-mL Flared-Top Centrifuge Tubes
(120-6724) 500/pkg

#113137, Yellow Snap Caps with Sanitary Grip for 12-mL Flared-Top Centrifuge Tubes
(120-8588) 500/pkg

globe SCIENTIFIC INC.

Research-Grade Centrifuge Tubes

50 mL, 30-mm x 116-mm Conical Centrifuge Tubes with Screw Caps

- Acrylic spin rate is 5000 rpm
- Polypropylene spin rate is 10,000 rpm
- All caps are made from high-density polyethylene (HDPE)

#6244, Polypropylene, Non-sterile, Bulk
(424-5618) 500/case

#6242, Polypropylene, Non-sterile
(424-9912) 500/case
Contains: 25 per rack.

#6240, Polypropylene, Non-sterile
(424-8018) 500/case
Contains: 25 per bag.

#6243, Polypropylene, Sterile
(424-8999) 500/case
Contains: 25 per rack.

#6241, Polypropylene, Sterile
(424-5191) 500/case
Contains: 25 per bag.

globe SCIENTIFIC INC.

Specimen Transport Bag

These specimen bags are available with a zipper closure or tamper-evident glue seal. The bags are printed with a biohazard symbol and feature an attached document pouch that keeps important paperwork safe.

#4918, 6" x 9" Bag with Document Pouch
(106-5227) 1000/case

globe SCIENTIFIC INC.

Transport Tubes, Polypropylene

Safely store and transport biological materials with self-standing polypropylene tubes. The polyethylene leak-resistant caps can be removed or sealed in a single turn. Molded graduation marks measure 1.5 mL to 14 mL.

- Tubes are self-standing with conical bottoms
- Available with caps attached or packaged separately

#6101, 5 mL, Non-sterile, with Separate Screw Cap
(110-6203) 1000/case

#6101C, 5 mL, Non-sterile, with Attached Screw Cap
(356-3969) 1000/case

#6101S, 5 mL, Sterile, with Attached Screw Cap
(424-6233) 500/case

#6102, 10 mL, Non-sterile, with Screw Cap
(120-1971) 1000/case

#6102C, 10 mL, Non-sterile, with Attached Screw Cap
(120-6506) 1000/case

#6102S, 10 mL, Sterile, with Attached Screw Cap
(945-1766) 500/case

#6255, 50 mL, Non-sterile, with Screw Cap, Bulk
(424-6071) 500/case

#6256, 50 mL, Sterile, with Attached Screw Cap, Bulk
(999-6888) 500/case

globe SCIENTIFIC INC.

Borosilicate Glass Culture Tubes

Globe Scientific introduces a new line of high-quality borosilicate glass culture tubes. These tubes offer exceptional quality at great prices. They are neatly packaged in heavy-duty boxes of 250 and are shrink wrapped to keep them particle-free. The boxes are compact and designed to fit into most test-tube dispensers.

3 mL, 10 mm x 75 mm
(424-0058) 250/box

5 mL, 12 mm x 75 mm
(424-0059) 250/box

7 mL, 13 mm x 100 mm
(116-7973) 1000/case

10 mL, 16 mm x 100 mm
(424-0060) 250/box

12 mL, 16 mm x 125 mm
(424-0062) 1000/case

15 mL, 16 mm x 150 mm
(424-0061) 1000/case

globe SCIENTIFIC INC.

Formalin Filled Containers

Save time and reduce formaldehyde exposure and spills with prefilled formalin containers designed for the safe collection, preservation, transportation and storage of specimens. Produced from polypropylene, choose from highly leak-resistant Tite-Rite™ containers or leak-resistant large containers, both prefilled with 10% neutral buffered formalin.

Tite-Rite™ Containers

#6518FL, 20 mL (0.66 oz)
(396-2441) 100/case

#6520FL, 40 mL (1.32 oz)
(120-7084) 100/case

#6522FL, 60 mL (2 oz)
(120-7083) 100/case

#6525FL, 90 mL (3 oz), Wide Mouth
(120-6449) 100/case

Large Containers

#6387FL, 240 mL (8 oz)
(970-0586) 90/case

#6397FL, 360 mL (12 oz)
(177-5659) 48/case

#6399FL, 480 mL (16 oz)
(120-1863) 48/case

globe SCIENTIFIC INC.

Urine Collection Containers and Cups

The 4-oz (120-mL) containers are available in both sterile and non-sterile versions. Non-sterile containers have a frosted writing area for patient information. Sterile containers are individually wrapped and have a trilingual patient ID label. They also have easy-to-turn, leak-resistant screw caps and molded graduation marks. The 6.5-oz (190-mL) cups come in both polypropylene and polystyrene versions and are available with or without paper lids.

#5912, Trilingual Patient ID Label, Sterile, Individually Wrapped
(606-6028) 100/case

#5913, 4-oz Container, Sterile, Individually Wrapped
(868-0112) 100/case

#5915, 4-oz Container, Non-sterile, Etched Writing Space, Bulk
(642-6596) 500/case

#5916, 4-oz Container, Non-sterile, with Affixed Thermometer Strip
(413-4578) 500/case

#5920, 6.5-oz Specimen Collection Cup, PP
(868-8877) 25/pack

HENRY SCHEIN® MEDICAL | DERMATOLOGY

MOHS LABORATORY SUPPLIES

EMBEDDING MEDIA:

(102-3734)	Cryo O.C.T.	4 oz.
(116-1233)	Paraplast® Plus	8x1kg /Case
(106-4135)	Tissue-Tek® O.C.T. Compound	4 oz.

(Frozen Tissue Matrix)

TISSUE FREEZING PREPARATIONS:

(104-3248)	Cytocool® II	11 oz.
(406-1248)	Flash Freeze Spray	11 oz.
(106-3127)	Neg-50 Clear	4oz.
(758-1368)	Neg-50 Blue	4 oz. x 2/Box
(106-7137)	Tissue Freezing Media Clear	4 oz. x 12/Cs.

MOUNTING MEDIA:

(334-7213)	Cytoseal® 60 Low Viscosity	4 oz.

(Toluene-Based For Use with Cover Glass)

(122-6901)	Permount®	100 mL

(Toluene-Based For Hand Coverslippers)

(106-7123)	SHUR/Mount™	12 x 4 oz./Case

(Xylene-Based For Automated Coverslippers)

FIXATIVES:

(108-3646)	Acetic Acid 10%	16 oz.
(120-1795)	Glacial Acetic Acid	16 oz.

(Also Known As Ethanoic Acid)

(120-0443)	Acetone	16 oz.
(120-2827)	Acetone	Gallon
(120-8724)	Ethanol Alcohol 95% 200 Proof	Gallon

(Also Known As Ethanol, Denatured Alcohol, Algarin Denatured, Ethyl Hydrate Denatured, Grain Alcohol Denatured)

(364-6848)	Ethanol 100%	16 oz.
(600-4289)	Formalin Aceto-Alcohol	Gallon

(FAA Solution or Carnoy's Solution)

(120-8911)	Formalin, 10% Buffered	10 Liter

(NBF or Neutral Buffered Formalin)

(110-5855)	Pen Fix	4 Gallon/Case
(106-3078)	SafeFix II	Gallon

(Formalin Substitute)

(234-6266)	Zinfix® Zinc Formalin Fixative	Gallon

DEHYDRATING REAGENTS:

(113-7936)	Flex 100% Alcohol	4 Gallons/Case

(Premixed Blend of Methyl and Isopropyl Alcohol For H&E Staining I)

(120-9026)	Ammonium Hydroxide	500 mL

(For H&E Staining)

(120-7599)	Deionized Water (Di)	20 Liters/Box

BLUING AGENTS:

(608-5631)	Substitute for Scott's Tap Water	Gallon
(106-2876)	Bluing Reagent	Gallon

(For H&E Staining)

HISTOLOGY STAINS:

(106-3048)	Clarifier 2 Reagent	Gallon
(799-1780)	Clarifier 2 Reagent	Gallon

(For Improved Contrast & Increased Cell Transparency)

(831-6922)	Diff-Quik Stain Set	3 x 500 mL

(Also known as Romanowski Stain)

(113-4902)	Eosin-Y Stain Solution 1%	16 oz.
(906-6070)	Eosin-Y Working Solution	Gallon

(Also Eosin Y & Alcohol)

(652-8573)	Eosin-Y Stain Solution 1%	32 oz.

(Also Eosin Y & Alcohol)

(424-6155)	Harris Hematoxylin Stain	500 mL

(Mercury-Free)

(398-4749)	Gills I Hematoxylin	Gallon
(106-2893)	Gills II Hematoxylin2	4 Pints/Cs.
(487-7361)	Gills III Hematoxylin	33.8 oz.
(230-4808)	Gills III Hematoxylin	Gallon
(106-7191)	Tissue Marking Dye, 6 Colors	18/Kit
(925-7517)	Toluidine Blue 0.1%	8 oz.
(925-4103)	Toluidine Blue 1%	16 oz.

(Also Called Diff-Quik or Romanowski Stain)

DECALCIFYING SOLUTION:

(120-1248)	HCl-EDTA Rapid Decal	Gallon

CLEARING AGENTS:

(111-8126)	Clear-Rite 3™ Solvent	4 Gallons/Case

(Can Be Used In All Tissue Processors and Automatic Stainers)

(357-0333)	d-Limonine, Purified	4 Gallons/Case

(Citrus-Based Xylene Substitute)

(120 -3130)	Safe-Clear	Gallon
(114-7751)	Histo-Clear™	Gallon
(120-4629)	Xylene	Gallon

TRANSPORT & LAB SUPPLIES:

(369-4647)	Petri Dish 4" (100mm)	25/Pkg.
(122-7441)	Petri Dish 4" (100mm) Glass	12/Pkg.
(115-1911)	Prefilled Formalin Jar	96 x 20 mL/Case
(115-1912)	Prefilled Formalin Jar	96 x 40 mL/Case

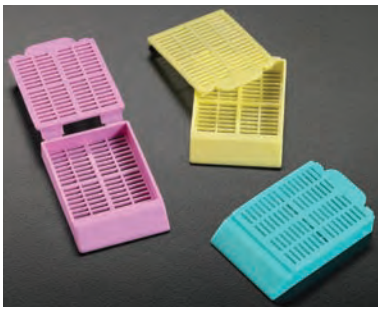
We stock over 100,000 products, including a full line of Histology and Cytology Containers: Tissue and Biopsy Cassettes, Slide Storage/Staining/Mailing, Sample containers, and more. If you don't see what you need for your practice, call your Henry Schein Sales Consultant or visit: www.henryschein.com/mohs

Simport

Histosette® I Tissue Processing/Embedding Cassette

Disposable plastic cassettes hold tissue specimens during the embedding process, as well as in a storage file. Molded from a special high-density polymer, these cassettes keep specimens safely submerged in liquid and are totally resistant to the chemical action of histological solvents. The efficient flow-through slots maximize fluid exchange and ensure proper drainage. The one-piece integral lid eliminates the need for separate steel lids. Just snap apart and conveniently lock the lid into the base of the cassette. Cassettes can be opened or closed as often as necessary and always relock securely without danger of specimen loss. Large labeling areas are located on three sides of the cassette. Anterior writing area at a 45° angle. The more acute angle makes cassettes more suitable to be used with some models of cassette-labeling instruments.

Cassettes 1500/case



Specify:

#M498-10, Lilac	**(115-1678)**
#M498-11, Orange	**(115-1679)**
#M498-12, Aqua	**(115-1680)**
#M498-2, White	**(115-1681)**
#M498-3, Pink	**(115-1682)**
#M498-4, Green	**(115-1683)**
#M498-5, Yellow	**(115-1684)**
#M498-6, Blue	**(111-6103)**
#M498-7, Peach	**(115-1685)**
#M498-8, Tan	**(115-1686)**
#M498-9, Gray	**(115-1687)**

Unisette™ Biopsy Processing/Embedding Cassette

Molded from a special high-density polymer, these cassettes keep specimens safely submerged in liquid and are totally resistant to the chemical action of histological solvents. The efficient flow-through slots maximize fluid exchange and ensure proper drainage. The one-piece integral lid eliminates the need for separate steel lids. The snap-latch and hinge-lock design of the Unisette™ prevents early separation of base and lid and allows for one-hand operation. Lids can be opened and closed as often as necessary and always relock securely without danger of specimen loss. Large labeling areas are located on two sides of the cassettes. Anterior writing area is at a 35° angle. Specially designed to hold biopsy specimens during the embedding process.

Cassettes 1500/case

Specify:

#M506-10, Lilac .....**(115-1722)**
#M506-11, Orange.....**(115-1723)**

Molded from a special high-density polymer, these cassettes keep specimens safely submerged in liquid and are totally resistant to the chemical action of histological solvents. The efficient flow-through slots maximize fluid exchange and ensure proper drainage. The one-piece integral lid eliminates the need for separate steel lids. The snap-latch and hinge-lock design of the Unisette™ prevents early separation of base and lid and allows for one-hand operation. Lids can be opened and closed as often as necessary and always relock securely without danger of specimen loss. Large labeling areas are located on two sides of the cassettes. Anterior writing area is at a 35° angle.

Cassettes 1500/case

Micromesh™ Biopsy Processing/Embedding Cassettes

This version of the Micromesh™ offers 1676 square openings (0.38mm), allowing for a greatly improved fluid exchange without having to use biopsy pads. Large anterior and posterior slots in both cassette and cover ensure that the Micromesh™ biopsy cassette will sink rapidly. A large square compartment measuring 27mm is perfect even for needle biopsies. The cover does not protrude above the cassette, a great space-saving feature allowing more cassettes to be stacked in automatic labeling machines and tissue processors.

Cassettes 1000/case

Specify:

#M507-10, Lilac .....**(115-1733)**

Embedding Cassette

Disposable plastic tissue cassettes are suitable for holding and identifying tissue samples in processing, embedding, and sectioning procedures. The cassettes fit securely in microtome chuck adapters. They are molded from a high density polymer that is totally resistant to the chemical action of histological solvents. These cassettes are designed to accept standard metal lids and will keep specimens in complete safety during processing. The slanted writing surface accepts markings easily, permitting sample identification throughout all stages of embedding and long afterwards when in archives.

Cassettes 1500/case

Specify:

#M480-10, Lilac .....**(487-7323)**
#M480-11, Orange.....**(114-9995)**

Biopsy Foam Pads

Used to hold biopsies in place and prevent them from being lost during processing. Specially formulated foam is always verified for consistency throughout to achieve optimum solvent flow. Biopsy samples are sandwiched between two foam pads and placed either in tissue capsules or cassettes with metal or plastic lids. Resists temperatures from -40°C to 121°C. For use with cassettes.

#M476-1
30.2 mm x 25.4 mm x 2 mm
(120-6138) 1000/case

Simport

Disposable Base Molds

Disposable base molds offer ease and convenience of operation. They are inexpensive enough to be discarded after use, yet strong enough to be reused. Specially formulated plastic material provides excellent thermal exchange. Smooth interior finish and rounded corners facilitate specimen removal. Available in the same variety of sizes as metal molds and can be used with the same styles or types of cassettes and embedding rings.

Base Molds 1000/case

Specify:
#M475-1
7 mm x 7 mm x 5 mm.....**(114-9988)**
#M475-2

SlideFolder™ Microscope Slide Holder

The SlideFolder™ will hold up to 20 standard microscope slides 75 mm x 25 mm (3" x 1") and is made of 2 parts: a base holding the slides horizontally, offering numbered spaces for easy identification, and transparent doors that can either cover the slides or be swung behind the SlideFolder™ for space-saving purposes. The 2 transparent hinged covers offer a full view of each slide without having to remove it from its position in the SlideFolder™, and allow easy reading of ID labels with or without an optical bar-code reader. All units are stackable and take minimal space on laboratory tables or shelves.

Slide Holders.....10/case

Specify:
#M750-20AS
Assorted, 2 of Each Color..**(115-1875)**

EasyDip™ Slide Staining Rack

Rack will hold up to 12 microscope slides with dimensions such as 75 mm x 25 mm, (3" x 1") and even 76 mm x 26 mm and with a thickness of 1.0 mm to 1.2 mm. The slides fit into individual slots for free passage and rapid drainage of staining fluids. Since they are placed vertically in the rack and not horizontally, their writing area will not be stained by the fluid, allowing their removal without the use of forceps. The lid completely covers the EasyDip™ Slide Staining Jar to minimize spill and evaporation. A handle is permanently attached to the rack for easy insertion and removal of slides without the user's fingers touching the solution.

#M905-12DGY, Dark Gray
(115-1897) 6/case

Simport

StainTray™ Slide Staining System

The StainTray™ has a black base made of tough ABS plastic that can withstand a wide range of chemicals (avoid chlorinated hydrocarbons). It will accept up to 20 slides on four plastic rails covered with a polymer strip to hold slides perfectly even if tray is held at an angle. When humidity is needed, wells between rails will hold up to one mL of water securely without splashing. Middle wells will hold up to 2 mL each. Rails are raised not only to avoid water touching the slides but to make them more easily retrievable. The base will also hold excess stain solution dripping from the slides. Four rubber feet ensure greater base stability. Units are stackable for space-saving purposes.

Slide-Staining System .....ea

Specify:
#M920-1, Base with Clear Lid .....**(115-1904)**
#M920-2, Base with Black Lid .....**(115-1905)**
#M921-1, Clear Lid Only....**(115-1906)**
#M921-2, Black Lid Only....**(115-1907)**

Simport

EasyDip™ Slide Staining System

The system has two components: a square staining jar and a 12-position vertical slide rack. Made of resistant acetal plastic, the staining jar will not break like most glass jars do. It will resist most staining agents, including alcohol and xylene (but not phenol, iodine or ferric chloride). The wide stable base offers greater stability, while the inside is recessed, allowing for a smaller reagent volume of only 80 mL. Easy to clean and no metals to corrode. Ideal for special stains, frozen sections and special processes.

Slide-Staining Systems.....6/case

Gordon Laboratories

Monsel's (Rx) Solution

Formula to help control bleeding during biopsy, LLETZ, and laser procedures. Widely known as ferric-subsulfate solution, it is less irritating than ferric-sulfate solution, owing to the smaller proportion of sulfuric acid. Convenient 8-mL, light-resistant amber glass vials for single usage. Includes applicators.

8-mL Unidose Vial
(812-0005) 12/box

Gordon Laboratories

Lugol's (Rx) Solution

This powerful anti-infective agent contains an aqueous solution of iodine and is used in cervical cancer screening. Convenient 8-mL, light-resistant amber glass vials for single usage. Includes applicators.

- Used for staining cervical and vaginal mucosa during colposcopic evaluations of abnormal Pap smears
- Less painful or irritating than alcoholic solutions when applied to cuts
- Potassium iodide added to increase the solubility of the iodine

#0111-8, 8-mL Unidose Vials
(812-0004) 12/box

ORDERING OPTIONS

Streamline your ordering process in a world where there is no "one size fits all".

Henry Schein offers a wide range of ordering tools and options that you can access at your convenience.

ALFA WASSERMANN
Diagnostic Technologies, LLC

ACE Alera® Clinical Chemistry System

This high performance, low maintenance chemistry analyzer is capable of improving patient care and your bottom line. Designed to meet the needs of the POL, it has been cleared by the Food & Drug Administration specifically for use in Physician Office Labs.

Instrument features:

- Processes up to 165 photometric tests per hour and up to 120 potentiometric (ISE) tests per hour
- Patented, closed-tube sampling assures safety by effectively minimizing the risk of bloodborne pathogens, eliminating need to pour off samples
- Refrigerated compartment maintains specimen and reagent integrity as well as eliminating overnight reagent transfer
- Up to 40 test reagents can be stored on-board at any time
- Software identifies and tracks samples, patients, and reagent details, including expiration date and remaining reagent
- Stores up to 1,000 patient records and 5,000 requisitions
- Offers a unique stat interrupt process for single or panel testing
- Ensures fast, accurate reporting of abnormal test results by automatically diluting and repeating those tests without operator intervention while offering a unique stat test interrupt process for single tests

ACE Axcel™ Clinical Chemistry System
This next-generation clinical chemistry system sets the standard for excellence in today's physician office laboratory (POL). With touch-screen functionality, an intuitive user interface, and Internet connectivity, the ACE Axcel offers the latest advances to make in-office laboratory testing fast, convenient, and cost-effective. Designed to meet the needs of the POL, it has been cleared by the US Food and Drug Administration specifically for use in physician office labs.

ALFA WASSERMANN
Diagnostic Technologies, LLC

Features:
- Up to 165 photometric tests per hour; 285 per hour with ISE
- Internet connectivity allows for technical support, remote access, and laboratory integration
- Optional barcode scanner automates sample identification and streamlines workflow
- Run panels, profiles, or single tests in any combination at any time
- Create custom panels to meet the needs of your practice
- Stat interrupt allows users to load and prioritize stat samples during operation for immediate diagnosis and treatment
- Liquid, ready-to-use reagents eliminate prep time, improving operator productivity
- Automatic reagent inventory management

HORIBA Medical

ABX Pentra 400 Analyzer Clinical Chemistry System

A compact, benchtop, clinical chemistry analyzer. Its autonomy and continuous loading provide enhanced productivity in a user-friendly environment. This very precise optical system meets the requirements of highly accurate photometric measurement. An extensive panel of liquid reagents simplifies workflow. Horiba presents a range of ready-to-use reagents in a single format.

- Up to 420 tests per hour with the ISE module
- 55 on-board assays with backup availability
- Save valuable time: control all of your operations from the main screen (system, reagent, and sample status), and easily upload target values for calibrators and controls
- Secure data management: Westgard multirule QC procedures with up to 3 default controls, full QC program stores up to 12 months of control history, Levey-Jennings, and statistics
- Conduct high-quality analysis: single-use reaction cuvette performs sensitive tests and all latex assays, high-performance mixer design mixes in minimal time without contaminating, and test-sequence setting program features an incompatibility function

- Control cost: optimized number of tests per cassette and limited calibrations

ABX Pentra C200 Clinical Chemistry System

Offers a unique level of automation in a compact system.

- Fixed cycles provide continuous throughput of 90 colorimetric tests/hour
- Optional high-throughput ISE module (270 tests/hour)
- Reagent management with unique Pentra cassette
- Fully automatic cuvette management with 2 racks of 96 single-use cuvettes
- Dedicated waste compartment for used cuvettes and contaminated liquids
- Peltier integrated computer and cooling unit
- Spectrophotometry: colorimetry and turbidimetry
- Potentiametry: direct (serum or plasma) and indirect (urine)
- 15 parameters per reagent tray with optional ISE module (Na+, K+, and Cl-)
- Reagent handling: positive reagent identification features an integrated bar-code reader; reagent needle detects level and shock; and reagent management with cassettes features an automated reagent on-board stability check plus continuous-test countdown check by capacitive effect

Is an antibiotic necessary?

Hybrid Synergy™

Make a rapid determination...

VIRAL or **BACTERIAL**

MicrosCRP200

A single finger stick of whole blood gets you CBC and CRP results in 4.5 minutes!

Accurate diagnosis avoids unnecessary antibiotic prescriptions.

Reimbursement codes are applicable for each CBC and CRP test. The Micros CRP200 analyzer provides STAT testing, producing quantitative results that lead to a more accurate diagnosis.

IMMEDIATE / ACCURATE / EFFECTIVE

MedTest

Spotchem EZ Analyzer
Automated Dry Chemistry Analyzer

- Easy, walk-away operation
- Calibration in seconds
- Whole blood or serum analysis within 3 minutes
- 13 CLIA-waived tests (lipids, diabetes, and general chemistries)
- Single strips, not just panels
- Individual sealed tests
- Reagent strips
- Whole blood sample
- CRMLN certification
- Onboard centrifuge
- Minimal waste
- Minimal maintenance
- Easy installation
- Small, compact footprint
- Mobile
- Internal computer
- Integral printer
- LIS capability

Vitros® 350 Chemistry System

Offers easy operation, maintenance, and training, whether you use it as a primary, STAT, or backup to the powerful Vitros® 5,1 FS. The Vitros® 350 comes complete with enhanced throughput, a broad accessible menu, and new ergonomic design.

Features:

- Labor-saving ease of use: easy to train and cross-train operators
- Walk-away operation: quality-control procedures are required just once a day and calibration intervals up to 6 months
- Operator interface: ergonomically designed, flat, low-glare LCD touch-screen monitor
- Onboard documentation and help function
- Versatile and efficient: up to 300 results per hour
- Onboard capacity for all 45 assays
- Primary tube sampling
- Optional positive identification via barcode scanner
- Secure results: self-monitoring alerts operators to prompt action, avoiding testing delays

#6802153

Ortho Clinical Diagnostics
a Johnson & Johnson company

Vitros® ECiQ Immunodiagnostic System

Features:

- Advanced processing center: Ensures result integrity for quality result reporting
- Patient samples and reagents automatically metered into MicroWells
- Intellicheck® Technology verification at each step
- Dual-logic processing optimizes assay performance and throughput
- Reagent and Management Center: Optimizes labor by reducing operator intervention
- Up to 20 integrated reagent packs loaded any time and stored onboard for continuous, random access operation
- Automatic inventory management monitors and verifies inventory, expiration, and calibration
- Sampling center: Reduces errors for worry-free result reporting
- Unique Save-the-Sample Clot/Bubble Detection preserves the specimen and minimizes redraw
- Universal sample trays accommodate primary, secondary, and microcollection containers and sample cups without adapters or pour-off containers
- e-Connectivity® Center: Maximizes system uptime and increases staff productivity
- Highly secure, real-time 2-way communication between your system and our support teams
- Automatic data exchange and remote connectivity for immediate diagnostic and performance analysis
- Immediate resolution of technical issues without a service visit

Ortho Clinical Diagnostics
a Johnson & Johnson company

Vitros® 5600

Overview:

- Increases capacity with 150 reagent positions that allow over 100 assays to be on-board at once
- Provides greater efficiency, lower maintenance, and minimal calibration by integrating our proven MicroSlide, MicroTip, MicroWell, Intellicheck, and MicroSensor technologies
- Optimizes turnaround time and productivity through innovative Sample-Centered Processing
- Verifies system processing and result reporting while reducing errors
- **Microsensor Technology:**
- Reagent-less determination of sample quality indices without additional sample volume or impact on throughput
- Reduces the time, labor, and error potential of manual interpretation
- **Sample Centered Processing:**
- Chemistry and immunoassay sample are processed in parallel
- Eliminates the need to move trays or aliquot samples
- Improves turnaround time and increases efficiency
- Single-use tips for sample and reagent metering
- Eliminates sample and reagent carryover
- Automatically detects clots and bubbles to avoid reporting erroneous results
- **e-Connectivity®/Proactive Monitoring**
- Highly secure, real-time, 2-way communication between your system and our support teams for timely resolution of technical issues

SIEMENS

Advia® 1800 Clinical Chemistry System

Pushes the limit of productivity. Its extensive menu allows integration of testing for clinical chemistry, drugs-of-abuse, therapeutic drug monitoring (TDM), and specific proteins like Cystatin C and CardioPhase® hsCRP. This is an ideal solution for mid- to high-volume chemistry analysis. Featuring intuitive new software and capabilities, it is designed to deliver power and speed to meet the most demanding performance needs.

System offers:

- Throughput of up to 1,800 tests per hour provides speed to keep pace with workload peaks
- 200 basic metabolic panels per hour meet turnaround-time demands
- Large onboard reagent capacity and optional concentrated reagents reduce interruptions
- Optimal standardization of reagents and systems for efficient consumable usage
- Automation ready design: no additional hardware required
- **Automation-ready design:**
- Point-in-space aspiration offers connectivity to a track, VersaCell, or rack handler without robotics or special hardware
- Direct sampling from track prevents detaining tubes at analyzer and reduces aliquoting
- **Peak productivity:**
- Automatic Sample Retain technology provides the ability to perform reruns and dilutions without the need to retrieve primary tubes

- Consolidation power with a comprehensive menu, consistent cycle times, speed, and open-application capability
- **Total system reliability:**
- Robust hardware and simplified software design, with automatic calibration validation, and tracking
- Remote diagnostics and ILQC (Inter-Laboratory Quality Control) options

- **Easy efficiency:**
- Reagent pause capability and onboard Sample Pause button make loading easy
- Sample integrity checking, including serum indices reporting, short sample flagging, and clot detection reduce manual intervention

SIEMENS

Dimension® EXL™ 200
Integrated Chemistry System
This system offers revolutionary LOCI® advanced chemiluminescent technology and automated, productivity-enhancing features for the smaller-sized laboratory.

Immunoassay:

- 167 tests per hour
- Homogeneous chemiluminescent technology
- Short reaction times: no washing or separation steps
- Excellent STAT testing capability
- Low sample volume required
- **Trusted, proven technologies:**
- LOCI® advanced chemiluminescence, with a maximum throughput of 624 tests per hour (437 photometric tests per hour, 187 ISE tests per hour)
- Heterogeneous module
- Photometry
- QuikLYTE® IMT
- User-defined serum index (HIL) testing
- Automation capabilities
- **Fewer manual tasks:**
- No manual reagent preparation
- No manual sample pretreatment
- No limit or dedicated STAT positions required

#778041.911

HORIBA Medical

ABX Micros 60
Hematology Analyzer

- Complete hematology profile: 16 parameters, 60 samples/hour (open tube) or 55 samples/hour (closed tube), and microsampling: 10 µL of whole blood per cycle
- Concept and technology: impedance and selective lysing (LMG), no compressor (stepper motor), and low noise
- Automatic maintenance: automatic cleaning of the sampling probe and 16 parameters: HGB, HCT, MCV, MCH, MCHC, PLT, MPV, RDW, LYM (% AND #), MON (% AND #), GRAN (% AND #), RBC, WBC, and PLT histograms
- List of options: closed-tube sampling mode (4-position tube holder), bar-code reader (optional), and standalone smart-card reader (stores 78 results with graphics on rewritable memory smart card)

ABX Micros
CRP 200 Analyzer

- Rapid patient diagnosis: 16 CBC parameters with simultaneous CRP option, 3-part WBC differential, whole-blood microsampling, information management, and STAT results
- Complete system designed to fit your needs: minimal daily maintenance, ideal for capillary collection, 4-position tube holder (QC, 500 µL, 3 mL, and 5 mL), and automatic sampling probe cleaning
- Information management: patient history log, cumulative reporting, and CLIA/HIPAA compliant (with easy-to-use tutorial guide)
- Therapeutic decision making and monitoring:
  - – Pediatrics: determination of viral or bacterial origin
  - – Oncology: patient-monitoring chemotherapy
  - – Rheumatology: monitoring anti-inflammation therapy
  - – Intensive care: postoperative monitoring
  - – Emergency services: rapid patient diagnosis

HORIBA Medical

ABX Pentra 60 C+ Hematology Analyzer

- Horiba Medical holds 2 patents, Double Hydrodynamic Sequential System (DHSS™) and Multi-Distribution Sampling System (MDSS™)
- Concept and technology: cytochemistry, impedance (real cell volume measurement), optical DHSS technology (analysis of the internal cellular structure by measuring light absorbance), and MDSS technology (precise homogenization of blood samples with reagents
- No compressor, no shear valve, and less maintenance
- Throughput to 60 samples/hour
- Perfect differentiation of the 5 WBC subpopulations with DHSS technology
- Three histograms for RBC, BAS/WBC, and PLT, together with the 5 DIFF matrix
- Basophils counted through specific channel
- Data management on stand-alone PC
- Microsampling from whole blood (CBC: 30 µL and DIFF: 53 µL)

#P60CP001NUA1
(111-3703) .....ea

ABX Pentra XL 80 Hematology Analyzer

- HORIBA Medical holds 2 patents, Double Hydrodynamic Sequential System (DHSS™) and Multi-Distribution Sampling System (MDSS™)
- Cytology platform performance: 80 tests/hour, large-capacity autoloader(100 tubes), stat sampling on open or closed tubes, 26 parameters (CBC: 10 and DIFF: 10), microsampling on whole blood (30 µL in CBC mode and 53 µL in CBC + DIFF mode), automatic sample rerun, integrated validation station, and compatible with ABX Pentra ML (Multilink System) to centralize hematology operations
- System memory stores up to 10,000 patient results: precise patient reports show tests results, demographics, graphs, flags, specific dilution rations in CDR mode, and remarks, with the option to export data
- Quality assurance: 3 active control levels identified by bar-code scanner and results displayed on Levey-Jennings graphs
- Precise, reliable results from DHSS and MDSS technologies

QBC Diagnostics

QBC STAR Dry Hematology Analyzer

The QBC STAR dry hematology analyzer can deliver a 9-part CBC with the touch of a single button. The STAR's unique microprocessor performs self-calibration, ensuring the accuracy of results.

#429001, STAR Analyzer
(108-4403) .....ea

Contains: the QBC STAR instrument, 2 rolls of thermal printer paper, screwdriver, forceps & power cord for 120V & 60Hz operation. Patient ID Keyboard, 10–1.8MM black lancets & 10–2.3MM black lancets.

#424304, Hematology Controls
(117-4049) .....2 x 6/pkg

Contains: 6 vials ea of 2 different blood samples.

#429580, Internal Printer Paper
(932-7453) 3/pkg

QBC Diagnostics

QBC AUTOREAD™ Plus Centrifugal Hematology System

- Results in 7 minutes; 9 parameters, and a 2-part differential are displayed and printed
- Improved readability and accuracy
- Totally dry procedure needs no user maintenance, no pumps or tubes to clean, no bulky wet reagents, no circulating blood, and no user calibration

#428605, AutoRead Plus System
(168-3721) .....ea

Contains: Analyzer, software, QBC centrifuge, printer, operator's manual, AccuTube user guide, AccuTube starter pack, universal power pack, pipetter & spacer, workstation, & space-saver stand.

#423406, AccuTube
(168-6070) 100/box

#429576, QBC Autoread Plus Analyzer Without Printer
(800-7690) .....ea

Contains: Analyzer only. Does not include accessories, centrifuge, or printer for 120/230 V, 50/60 Hz operation.

#424613, QBC Autoread Plus Calibration Check Rod
(101-3663) .....ea

Contains: specially coded metal carrier rod, used to calibrate the QBC Autoread Plus.

QBC Diagnostics

QBC™ Capillary Tubes

Designed for use with the QBC™ AutoRead Plus System.

#424241, Capillary Tubes
(168-5256) 100/box

Ortho Clinical Diagnostics
a Johnson & Johnson company

Ortho ProVue®

Overview:

- Immunohematology: The first fully automated blood bank instrument for the North American market to be based on the ID-MTS™ Gel Test™
- Operational improvement: Eliminate labor-intensive, time-consuming processes while increasing productivity via random access, discrete testing, and continuous throughput
- Risk management: Enhances process control with dispense verification, bar-code tracking from start to finish, and multilevel password protection
- Quality control features monitor reagent expiration, gel card integrity, and can reduce transcription errors due to a bidirectional interface
- ID-MTS™ Gel Test™ technology: With over 2,300 users in North America, this patented technology, based on column agglutination, can standardize your blood bank's complete menu of testing
- Flexible, powerful automation to meet your changing laboratory needs
- Flexible, powerful automation to meet your changing laboratory needs

Regardless of the type or size of your facility, Ortho offers a variety of affordable and flexible instrument platforms. Since the ID-MTS™ Gel Test™ requires no wash steps or multiple reagent additions, it is easily automated with a choice of affordable and flexible instrument platforms. These solutions secure positive patient identification, increase efficiencies, and maximize the use of resources.

Ac•T diff ™ with diff Ac•T Pak™ Tubing #6605540, 1 Yr. Bus. Hrs. 5-Days/Week Warranty
(331-2293) .....ea

- 16-parameter CBC with three-part differential
- Target volume: ideal for performing 1–100 CBCs a day
- Closed-vial sampling accommodates a variety of collection tube sizes
- Automated probe wipe safely cleans probe
- Small 18-µL sample size in either closed-vial or open-vial modes
- Compact: only 2 square feet of counter space required
- Efficient data management meets laboratory needs
- Automated quality assurance functions improve productivity
- Controls and calibrators designed for closed-vial sampling
- Zero routine maintenance requirements and high system reliability help contain cost

Ac•T 5diff™ CP Hematology System
Excellent Accuracy, Increased Safety
Fully automated system that delivers five-part differential testing for complete results in an affordable, easy-to-use package. With the convenience of cap piercing and an extensive data management system, the CP delivers reliability, accuracy, and more consistent patient care every time.

- 20-parameter CBC with five-part differential
- Target volume: ideal for performing 10–100 CBCs/day
- Closed-vial sampling accommodates a variety of collection tube sizes
- Automatic cap piercing with multiple-tube capacity
- Extensive data management capabilities for optimal record keeping
- 53-µL sample size for CBC
- 60-samples-per-hour throughput ensures productivity
- Zero routine maintenance requirement and high system reliability help contain costs

BECKMAN COULTER
Primary Care Diagnostics

Access® 2 Immunoassay System

With an intuitive operator interface, enhanced sample handling and innovative menu, the state-of-the-art Access 2 system delivers new levels of laboratory efficiency, standardization and cost effectiveness. A broad menu of high-quality assays from Beckman Coulter and productivity-enhancing features on the Access 2 offer laboratories a flexible option for immunoassay testing. Maximum throughput of 100 tests per hour for one-step assays and 50 tests per hour for two-step assays.

Product features:

- Touch-panel user interface improves data and sample management
- View rack and run completion time on screen, in real time
- Quickly view information on requested test, pending work and test results
- Perform user-defined reflex testing to eliminate repetitive, manual processes
- Link up to 4 systems through a single LIS interface for greater efficiency
- Instruments share information such as test requests and test results

- Streamline work flow with the system's flexible sample handling, using bar-coded primary and/or aliquot tubes
- Magnetic particle separation with chemiluminescent detection technology achieves wide analytical range and fast assay processing
- 24 resident assays with continuous random access and STAT capability
- Onboard refrigeration enhances reagent stability

UniCel® DxI 600 Access®
Immunoassay System

With up to 50 reagents onboard, the UniCel DxI 600 Access Immunoassay System enables you to have the flexibility to run both routine and specialized tests. The DxI 600 allows laboratories to decrease process steps and improve turnaround time, with astounding ease of use. Uses the same reagents as other UniCel Access systems, so your laboratory can deliver consistent patient results, no matter which Beckman Coulter immunoassay system performs the test. A broad menu across a wide variety of disease states enables your laboratory to consolidate workstations and recapture testing currently being sent out. Load reagents and all consumables on the fly, without using the console computer or pausing the instrument, minimizing operator intervention. Large onboard capacity of up to 60 samples at once with continuous loading sample racks allow samples to be loaded directly from the centrifuge, reducing manual processes.

Product features:

- Onboard capacity of 50 refrigerated reagent packs enhance flexibility
- Large onboard reagent capacity simplifies reagent management
- Rapid assay kinetics improve turnaround times
- System supports multiple assay protocols
- Magnetic particle separation with enhanced chemiluminescent detection delivers exceptional clinical performance
- Routine sample loading can be interrupted to load STAT samples quickly
- "Point-in-space" pipetting technology aligned with CLSI guidelines allows integration with laboratory automation systems
- Automatically creates aliquots based on the volume of requested tests
- System can be configured to aspirate additional volume required for user-defined reflex or rerun test scenarios
- System stores aliquots for up to 3 hours in a refrigerated, low-evaporation compartment
- Auto-matched pipettors work in parallel to deliver sample and reagent into the reaction vessels
- Achieves a peak throughput of 200 tests per hour

Provide convenient and quality patient care in your practice while you also increase profitability.

Henry Schein Medical's LabTeam™ is a single source for advice within the laboratory setting. With specific expertise in lab consultation and analysis, the LabTeam™ improves your patients' experiences in the office, while navigating profitability and regulatory requirements.

> "Our Clinical Lab Specialist has been very helpful to our bottom line by assisting in the research and selection of proper billing codes for us to obtain reimbursement. The analyzers he has introduced to our practice are state-of-the-art. I would not hesitate to recommend Henry Schein and their Clinical Lab Specialists to any physician looking to set up a lab or upgrade a current one."
>

> Ocala Family Medical Center

FEATURES:

- Consultation
- Design
- Financing
- Selection
- Implementation
- Support/Training

HENRY SCHEIN®
LabTeam™
SOLUTIONS FOR CLINICAL LABS

BENEFITS:

- Improve patient satisfaction with convenient onsite testing
- Expedite ability to diagnose with rapid turnaround of results
- New or expanded sources of revenue
- Stay current on technology/ reimbursement /regulatory changes
- Custom laboratory management solutions for cost-effective operations

HENRY SCHEIN® MEDICAL

Rely on Us

FINANCIAL SOLUTIONS

Take ownership of business decisions that impact the financial health of your practice.

Henry Schein Financial Services (HSFS) provides avenues for optimizing financial health and establishing a platform for ongoing growth.

HENRY SCHEIN®
FINANCIAL SERVICES
Business Solutions for Healthcare Practitioners

FEATURES:

- Financing, Leasing and Tools
- Risk Management
- Tax Strategy
- Practice Start Up/Expansion

BENEFITS:

- Experts in medical practice financials
- Industry-leading approval rating
- Low interest rates
- Accelerated timeline – fast to close
- Flexible terms
- Streamlined process due to strong relationships with medical-focused lenders

HENRY SCHEIN® MEDICAL

Rely on Us

SIEMENS

Immulite® 1000
Immunoassay System

Small benchtop immunoassay analyzer. The extensive menu, low cost of operation, reliability, and ease of use makes this system a great choice for laboratories with low-volume immunoassay tests.

Dependable operation:

- Throughput up to 120 tests per hour
- Reliability allows laboratories confidence in assay turnaround times
- Cost of ownership is low due to minimal service, operator interventions, and operator time

Improved laboratory efficiency:

- Few consumables
- Daily maintenance in less than 10 minutes
- Sample and reagent level sensors
- Easy entry of assay parameters, expiration dates, and calibration adjustment intervals
- Integration of the computer, keyboard, and monitor provide a consolidated footprint

Flexible solutions:

- Turbo assays (Troponin I, CK-MB, Myoglobin, Intact PTH, and HCG) allow results in 15 minutes for critical tests
- 12-position reagent carousel

SIEMENS

Immulite® 2000 XPi
Immunoassay System
This highly reliable system is easy to use and has one of the largest automated immunoassay menus available. Medium- to high-volume laboratories can incorporate specialty and allergy testing into routine workloads to improve productivity and efficiency.

Enhanced laboratory workflow:
- Maximum throughput of 200 tests per hour
- Rerun, dilution, and reflex capabilities minimize technologist's time
- Auto-start functionality—including automated daily maintenance and quality control scheduling—reduces hands-on operations

Flexible solutions:
- Cost-effective automation available by connecting to VersaCell® solutions
- Scalable connectivity to Siemens track-based automation solutions

Improved efficiency:
- Intuitive, easy-to-use software
- 19" touch screen monitor for easy navigation
- Color-coded consumable levels always available at a glance
- User configurable dilution and reflex testing to meet laboratory needs

SIEMENS

Advia Centaur® XP
Immunoassay System
This high-performance system has more onboard reagents and dedicated STAT capabilities to maximize productivity, regardless of volume or types of tests. Offers “always ready” continuous operation without interruption.

System offers:
- High throughput of up to 240 tests per hour
- Intuitive software for ease of operation
- STAT port guarantees priority sampling at any time
- Data archive reduces administrative tasks
- Extensive menu with 30 onboard reagents

Powerful productivity:
- Data archive feature reduces time for administrative tasks
- Universal sample rack design eliminates manual tasks

Excellent patient care:
- Automatic dilution, repeat, and reflex testing
- Smart Algorithm Software automatically repeats and confirms reactive testing

Flexible solutions:
- Connects to Siemens Aptio™ Automation, Advia® Automation, StreamLAB® Automation, and VersaCell® Solutions
- Siemens Remote Service (SRS) proactively maintains Siemens systems

#078-A011-03

HENRY SCHEIN® MEDICAL

MEDICAL WEB SITE

Quick & Easy Ordering! 1 Login 2 Order 3 Checkout

Which dynamic features do the Henry Schein Medical Web sites offer your practice?

- 24-hour/365-day availability to supply ordering
- Track orders and shipments and process returns
- Generate comprehensive utilization reports via our dynamic report wizard
- Set budgets and electronically approve orders for greater security and accuracy
- Access purchase history and real-time pricing
- Custom shopping list capability for easy ordering
- Paperless billing statement option
- Shop by procedure, chronic conditions, or simple, everyday essentials
- Access free MSDS documents for quick OSHA compliance
- Retrieve electronic statements and invoices for a paperless environment
- Access to promotions created uniquely for your specialty

CLINICAL LABORATORY

Provide convenient and quality patient care in your practice while you also increase profitability.

Henry Schein Medical's LabTeam™ is a single source for advice within the laboratory setting. With specific expertise in lab consultation and analysis, the LabTeam™ improves your patients' experiences in the office, while navigating profitability and regulatory requirements.

FEATURES:

- Consultation • Design
- Financing • Selection
- Implementation • Support/Training

HENRY SCHEIN®
LabTeam™
SOLUTIONS FOR CLINICAL LABS

BENEFITS:

- Improve patient satisfaction with convenient onsite testing
- Expedite ability to diagnose with rapid turnaround of results
- New or expanded sources of revenue
- Stay current on technology/reimbursement /regulatory changes
- Custom laboratory management solutions for cost-effective operations
